Summary

Ambitious cybersecurity analyst with hands-on experience in Networking, and VAPT tools such as Nmap, Burp Suite, and Wireshark, eager to protect information systems and support organizational security.

Experience

Cyber Security Trainer (Freelance), Coding Wizardz   July 2024 – Sep 2024

- Conducted hands-on cybersecurity training on network security, penetration testing (VAPT), and vulnerability assessment for students and professionals.
- Provided mentoring and one-on-one support to students to improve technical skills and prepare for cybersecurity certifications.
- Delivered practical demonstrations using cybersecurity tools such as Nmap, Burp Suite, Wireshark, OwaspZap.

Cyber Security Analyst Intern, Vectority Solutions   June 2023 – Oct 2023

- Assisted in monitoring and analyzing network traffic for potential security threats.
- Conducted vulnerability assessments and actively participated in remediation efforts.
- Contributed to the development and implementation of security policies and procedures.
- Collaborated effectively with team members to review and update security documentation.
- Played an important role in the maintenance of security tools and systems.

Projects

Vulnerability Assessment of a Web Application

- Performed a vulnerability assessment on a demo web application to identify security flaws using tools such as Nmap, Burp Suite, and OWASP ZAP. Conducted scanning, reconnaissance, and penetration testing to detect vulnerabilities and weak authentication. Documented findings and recommended remediation steps, gained hands-on experience in web application security, vulnerability assessment, and risk mitigation.
- **Technologies used: Nmap, Burp Suite, OWASP ZAP, Linux, Vulnerability Assessment, Penetration Testing**

Technologies

Programming Languages: Python and Java (basics)

Networking: TCP/IP, DNS, HTTP/S

VAPT Tools: Nmap, Burp Suite, Metasploit, Nessus, Nikto

Security Concepts: Vulnerability Assessment, OWASP Top 10, Threat Analysis, Incident Response

Version Control: Git, GitHub

Operating System: Windows, Linux

Certifications

Deloitte Australia Cyber Job Simulation on Forage   October 2025

- Completed a job simulation involving reading web activity logs, supported a client in a cyber security breach, and answered questions to identify suspicious user activity

CompTIA Pentest+ - TryHackMe.com   February 2023

- Completed hands-on experience in penetration testing, vulnerability assessment, ethical hacking, and practical use of tools like Nmap, Burp Suite, Metasploit, and Wireshark.

Education

Tirumala Engineering College, Bachelor's in Information Technology   April 2019 – Feb 2025

- Developed strong foundations in software development.
- **Coursework: Java, Web Fundamentals, Computer Networking**
